

# STREAMLINE THREAT DETECTION WITH ONE OF OUR FLEXIBLE PLANS.

Operationalize threat detection today with any of our plans. All of our subscriptions can be tailored to your tech stack and security landscape to power up and streamline your threat detection.

## PRO

Enhance threat detection with curated content developed by experts.

- Premium validated, behavioral threat detection content
- Thousands of real-time attack sessions
- Custom dashboards
- Up to 2 SIEM + EDR integrations
- Next-gen threat intelligence

[BOOK DEMO >](#)

## PLUS

Accelerate your ability to develop detection content with expert and open-source threat research.

All the benefits of our Pro tier plus:

- Accelerate custom content development and build detections-as-code
- Emulate attacks in-app or in your environment
- Equip your existing security validation platform

[BOOK DEMO >](#)

## COMPLETE

For large organizations in either the public sector or private sector who want access to all of SnapAttack's platform capabilities.

All the benefits of our Plus tier plus:

- Build and launch control validation scripts

[BOOK DEMO >](#)

## COMMUNITY

For individuals who want to learn and level up their detection game for free.

- All base threat detection content for free
- Advanced features such as integrations, attack capture lab, detection engineering, and validation only available starting at the Pro tier.

[JOIN FOR FREE >](#)

## EXPANSION PACKS

### Most Popular with MSSPS

### SECURITY CONTROL VALIDATION ENGINE

For organizations with no current validation capability that need to create and launch validation scripts to prove detection performance.

[BOOK DEMO >](#)

### USER + INTEGRATION EXPANSION PACK

For organizations that require extra users and integrations covered in their SnapAttack plan.
